

## Nozzle Lever Extension Kit

Volume 1, Issue 120

September 10, 2007

Some older (long length) balanced vapor nozzles and the Healy 400 nozzle are too long to fit in our standard lift-lever nozzle boot that is used on our 3k series and Horizon2 series dispensers.

To accommodate these applications, a field installed nozzle lever extension kit is available.

Please order:

#111303 Kit.....List Price as of this date = \$24.75 per Kit
